SOFTWARE DEVELOPER | BACK-END WEB DEVELOPER | SALES ASSISTANT

## PROJECTS

---

### Admission

Jul 2024 – Current

Software Developer

An online school admission platform ([In Development](#))

- Developing a **Django-based system with PostgreSQL** to allow parents to apply for school admissions and **track application statuses** in real time, enhancing transparency and accessibility for **1000 users during its beta test**.
- Building **secure parent authentication** with profiles for managing personal details and application history, **ensuring data privacy and a seamless user experience**.
- Designing dynamic student application forms and document upload functionality, accommodating varying school-specific criteria efficiently.
- **Creating** an admin dashboard to review applications, manage decisions, and send automated email notifications, **streamlining the admissions process for schools and parents alike**.
- Developing an **API** to store and manage school details, **enabling efficient integration and scalability** for future enhancements.

### E-Commerce Website

Jan 2024 – Jun 2024

Software Developer

[customkicks](#)

- **Developed** a Django-based e-commerce platform with PostgreSQL to enable secure login, registration, and data management, **ensuring data integrity for 10 users**.
- Integrated the **PayPal API** to establish a secure payment system, **achieving a 30% increase in successful transactions**.
- Will implement **Shipment Tracking API** to efficiently manage logistics for over **50 monthly orders**, ensuring on-time deliveries.
- **Enhanced** user experience through intuitive design and streamlined checkout processes, **boosting customer satisfaction ratings by 25%**.

### Student Card

Mar 2023 – Nov 2023

Back-end Web Developer

[studentcard.onrender.com](#)

- Developed a dynamic web application using **Flask and MySQL** to implement **secure user authentication**, enhancing data management efficiency for over **300 users**.
- **Independently managed** project timelines and tasks, delivering the project on schedule while showcasing **leadership, organization, and problem-solving skills**.
- Streamlined access to essential academic information, such as exam timetables, improving the student experience by reducing access time by **48%**.
- **Deployed** the application on Render using a GitHub CI/CD pipeline and Nginx, ensuring efficient **web hosting and reliable performance**.

## WORK EXPERIENCE

---

### Tekkie Town Store

Seasonal Sales Assistant

Makhado, Limpopo

Dec 2016 – Jan 2017

- **Collaborated** effectively with the team to manage on-floor stock and coordinate restocking efforts, ensuring product availability and visual appeal **during peak traffic**.
- **Achieved 73%** of the seasonal sales target by leveraging product knowledge and providing personalized assistance, enhancing the overall shopping experience and driving sales performance.
- **Demonstrated** strong time management skills during peak holiday sales, **delivering prompt customer assistance**, which **contributed to higher satisfaction and repeat visits**.

### Tekkie Town Store

Seasonal Sales Assistant

Makhado, Limpopo

Dec 2015 – Jan 2016

- **Communicated** clearly and confidently with customers, resulting in improved sales outcomes and a increase in customer satisfaction.
- **Adapted** quickly to fluctuating sales demands and changing store layouts, **ensuring smooth operations** and meeting **seasonal sales targets during busy periods**.
